Prerequisites for (curricular) exams

- ❖ Attendance of the classes is not compulsory, but highly recommended.

Other recommendations/indications:

- ❖ [Students' services](#) (The Senior Tutor's Office supports and coordinates the Tutorial Service of the Department);
- ❖ [Exams: Guidelines](#);

Learning objectives:

The Master's degree course in Finance and Markets aims to offer an in-depth and comprehensive education in finance, in the traditional areas, but also in the more current ones (impact finance, sustainable finance, behavioural finance) guaranteeing the ability to adapt to a constantly changing environment.

There are two curricula, both of which provide specialised training in finance (banking and asset management) and production (financial management of enterprises), the first with a bend towards digital technologies and their applications, the second, which includes teaching in English, allows for in-depth study of international issues that can enhance the operation of companies across borders;

Career opportunities:

Participants may pursue a career in: financial and business administration in the international context; country management; banks, insurance companies, brokerage and the saving market; consulting; public administration.
